

1. write a python script to print MySirG N times on the screen.

```
N=int(input("engter the range"))
for i in range(1,N+1):
    print("MySirG")
```

2. write a python script to print first N natural numbers.

```
N=int(input("engter the range"))
for i in range(1,N+1):
    print(i)
```

3. write a python script to print first N natural numbers in reverse order.

```
N=int(input("enter the range"))
for i in range(1,N+1):
    print(N+1-i)
```

4. write a python script to print first N odd natural numbers.

```
N=int(input("enter the range"))
for i in range(1,N+1):
    print(2*i-1)
```

5. write a python script to print first N odd natural numbers in reverse order.

```
N=int(input("enter the range"))
for i in range(N,0,-1):
    print(2*i-1)
```

6. write a python script to print first N even natural numbers.

```
N=int(input("enter the range"))
for i in range(1,N+1):
    print(2*i)
```

7. write a python script to print first N even natural numbers in reverse order.

```
N=int(input("enter the range"))
for i in range(N,0,-1):
    print(2*i)
```

8. write a python script to print squares of first N natural numbers.

```
N=int(input("enter the range"))
for i in range(1,N+1):
    print(i**2)
```

9. write a python script to print cubes of first N natural numbers.

```
N=int(input("enter the range"))
for i in range(1,N+1):
    print(i**3)
```

10. write a python script to print first 10 multiplies of N.

```
N=int(input("enter the number"))
for i in range(1,11):
    print(i*N)
```
